MILESTONE B

India's First AI-Powered Knee Replacement & 1500+ AI-Surgeries

Point: 1500+ AI-powered intelligent joint surgeries, using the Intellijoint KNEE imageless navigation platform.

The Hans India & This Week India (Nov 2025 / Jan 2026)

"India's first AI-powered joint replacement surgery unveiled by Sakra IKOC"

<https://www.thehansindia.com/news/cities/bengaluru/indias-first-ai-powered-joint-replacement-surgery-unveiled-by-sakra-ikoc-orthopedic-and-multi-specialty-hospital-1039673>

<https://thisweekindia.news/sakra-ikoc-debuts-indias-first-ai-powered-total-knee-replacement-surgery/>

Intellijoint Surgical Announcement

Official entry into India through Sakra IKOC with Dr. Chandrashekar P.

MILESTONE C

Professional Profile, Specialization, and Experience

Points: Complex Orthopaedic Surgeon, Sports Arthroscopy & Arthroplasty, and "More than 2 decades of Experience".

Practo Verified Profile

Lists Dr. Chandrashekar's 20+ years of active experience (registered in 2003 with KMC Reg No. 66588).

<https://www.practo.com/bangalore/doctor/dr-chandrashekar-orthopedist>

2. CLINICAL & DEPARTMENTAL INTERNAL RECORDS

Certain highly specific surgical case details and numbers are sourced from Dr. Chandrashekar's internal clinical databases and departmental records (IKOC / Sakra World Hospital) and are protected under medical privacy protocols (preventing direct patient-name publication online).

MILESTONE D 2500+ Joint Replacements in a Single Year

Point: Only surgeon in the state to finish more than 2500 joint replacements in a single year.

Verification Source: Audited internal surgical registry of the Department of Orthopaedics at Sakra World Hospital and IKOC.

MILESTONE E Highest Meniscus Repair and All-Inside Meniscal Devices

Point: Highest meniscus repairs and all-inside meniscal device implants globally/regionally.

Verification Source: Medical device registry/implant tracking data and the record of Karnataka's first meniscus transplantation department at Sakra World Hospital.

MILESTONE F Pediatric Meniscus Repair (4-Year-Old Patient)

Point: First surgeon to operate on a 4-year-old; meniscus repair on the youngest kid in Karnataka, and the 4th youngest globally.

Verification Source: Clinical case file records at Sakra World Hospital. (Pediatric meniscus tears are highly rare, typically congenital discoid meniscus tears requiring specialized preservation arthroscopic repairs).
